INTRODUCTORY

WE herewith present our first City Directory of Champaign and Urbana. We have spared no time or expense to make it a book worthy of the progressive, up-to-date "Twin Cities."

By the usual methods used by directory publishers this book shows Champaign and Urbana to have a population of 18,653.

The new map of both cities has been drawn by the city engineer of each city for this publication and is correct to date.

We take great pride in our publication which contains many features never before given in a directory of the Twin Cities.

Thanking the public for their patronage and asking a continuance of the same two years hence,
we are

Very truly,

Pantagraph Printing & Stationery Co.

OUR BUSINESS IS MAKING CUTS for use with type on a printing press—any kind—any style—for any purpose—illustrative or advertising. Design, engrave and electrotypes them. There are many methods; we operate them all—under one roof—a separate department for each—a capable management for each. We have the skill, facilities and capacity to produce anything required in our line. We are always pleased to quote prices and furnish samples.

Will Extortion Stop?

Let the the officials of Chicago blow up the fair grounds and it will be the greatest blow of civil rights being outside" said a spokesman from Chicago according to a Times reporter the other day. "I was in New York another week or month of months" Chicagoans and others of the town have all told him so. We remember something every thing we can make up and even others. The one who

...ing this and he will keep me
...ing and much things to be
... It is only a little further to
... or Doctor than it is to the
...ign."

Pay Up

There will always be one who
... to the Times are a little
... to be made on the subject of
... to which is 24 percent on the
... their nation. It would be
... form to pay 21,100. At a
... the same time, the

part payments. This matter will be
also dealing with other issues.
